QUALITY POLICY

Azcom Technology aims to maintain its position in the market and among its customers, responding satisfactorily to customer's expectations.

Azcom Technology recognizes quality as a critical aspect and an enabler that fuels the Company growth and success.

The Company fulfils its commitment to quality through:

- Achieving the level of performance and costs that meets requirements and exceeds customer's expectations;
- Realizing innovative and value-added products and services;
- Adopting agile procedures and smart monitoring mechanisms, designed and implemented to facilitate people work;
- Conforming to compliance and regulatory requirements;
- Valuing the contributions of all the stakeholders;
- Fostering best practices, innovation and continual improvement;
- Securing and maintaining relevant QMS accreditations.

Azcom Technology strongly believes that identifying and sharing

- Company's values and spirit;
- The projections of the future scenario;
- The Company present objectives;
- The actions to achieve the objectives;
- The ways to monitor the objectives achievement;

can support and speed up the improvement process.

The Quality Policy is addressed to be fully compliance to the ISO 9001 and ISO 27001 requirements.
